BEAR RIVER LAW SUITS HAPPILY THINGS OF PAST

With the directors of the Nevada Irrigation District voting four to one Thursday morning to drop the condemnation suits on the Bear river and thus ending the conflict with the Pacific Gas and Electric Company, things are rapidly assuming a brighter hue with the financial affairs of the District. Those voting to end the squabble with the power company which has been tying up the prospective revenues of the District, were Directors Teagarden, Schwartz, Mulcahy and Robinson while Ullrich preferred to stick with the Wisker ship to the last.

The pronunciamento of State Director of Banks Will C. Wood that the District should show a disposition to work with the power company in a co-operative way doubtless had a great deal to do with hastening the decision of the directors to get out of Bear river. The directors were called into conference with Mr. Wood on Tuesday in the city and his public statement to the press followed. The statement which is a lengthy one would be republished here but for lack of space. However the highlights of Mr. Wood's statement are as follows:

He states that there have been three points of controversy—the filing of the condemnation proceedings by the District was the most vital one, the second was the matter of the contract for the delivery of water and the third was the matter of the 135 feet of water to be delivered to the Company at Spaulding and thence through the Drum canal for pickup at the head of Bear river canal.

The major portion of the water which the District filed on in 1922 was flow from Lake Spaulding effected at great expense by the power company with the intention of using it in a series of power houses along Bear river and including the 16 mile stretch which the District was attempting to obtain under eminent domain proceedings. The District held that the failure of the company to make beneficial use of the water in the 16 miles, was technically an abandonment of the water. The company has held that there was no such abandonment, that it had been using due diligence in protecting its rights and that it has from time to time been acquiring rights on the Bear river and has been planning of extra power houses to utilize the full power possibilities of the river.

"Value Inflated"

"The success of the district in any effort to establish such rights is at best very problematical. In consequence the district does not stand to lose $7,000,000 if the directors waive their filing; the only thing the district will lose is a fairly remote chance to acquire the rights it has claimed.

The directors held a hurried meeting Thursday morning, voted to dismiss the condemnation suits and adjourned to meet this morning at which time it is expected that both Mr. Wood, Attorney General Webb and the representatives of the bond syndicate will be present to work out some solution of the pressing financial problems of the district. Should this be accomplished in a manner to insure the future well being of the district, those misinformed persons who thought starting a recall would reseat Wisker on his throne again, will be busy explaining their actions to the public generally. It is not considered likely that any further recall proceedings will be instituted against the other three directors and from the rising tide of indignation of pulling the recall at such a critical stage in the district history, is likely to prove a decisive boomerang for the few remaining Wisker cohorts in attempting to regain control of the board of directors. If the present board is unable to pull the district out of the ruck it will be time enough then to start removal of the entire board, but such a contingency is unlikely with the present setup.

Congressman Harry L. Englebright will be a speaker at the Nevada County Reunion at Mosswood Park in Oakland on September 9th.

ELECTION NEWS SERVICE GIVEN BY THE NUGGET

The Nugget will give complete election news service tomorrow night and will post bulletins as the various precincts register their vote totals. You may call at the office at any time during the evening or by calling Phone 36 we will be glad to give you a summary at any time of how the voting stands on the various candidates. Returns will doubtless be available by as early a date as 8 o'clock. The office will be kept open until a late hour to accomodate its friends. Do not hesitate to use the phone

MOHAWK SHAFT HITS A GRANITE NIGGER HEAD

The striking of a large granite "nigger head" in the new shaft being sunk at the Mohawk mine somewhat delayed progress of sinking the past week but the obstruction was practically cleared out Saturday afternoon and operations will resume faster this week. Joe Marriott is in charge of the shaft work.

Three shafts sets were completed to Saturday night and the work will be pushed until a depth of 200 feet is reached. The site of the shaft is just below the old Chinese cemetery. A site is being cleared for a headframe and hoist which will be erected at once. The present four stamp mil lon the property will be used for sampling operations and test runs.

M. E. Olsen, superintendent of operations for the Yakima Mohawk Mining Company opening up the property was called to Washington on business the past few days but is expected to return this week. In addition to the Ben A. and C. F. Bost and the Teale holdings of 105acres, the company has also taken over the Lotz mineral rights the past week.

A sample of the granite formation encountered in the shaft and showing a peculiar deposit of sulphides and galena in its surface is on exhibit in The Nugget windows and is creating a great deal of interest among mining men.

JACK HORWEGE PASSED AT M'CLOUD YESTERDAY

Jack Horwege, a native of Camptonville and well known throughout this section passed away at 11 o'clock yesterday morning at McCloud, Shasta County. The remains are being brought here and funeral services will be held tomorrow Tuesday afternoon at 3 o'clock from Odd Fellows Hall in Camptonville. Deceased left Camptonville some six or seven years ago. He was an uncle of Mrs. Clayton Chatfield of this city.

SCHIFFNER UNDERGOES OPERATION NICE SHAPE

General Manager Otto E. Schiffner of the Rescue Eula Mining Company which is opening up the Gaston Ridge properties above Washington, underwent an emergency operation at the Nevada City Sanitarium the past week and stood the ordeal in good shape. He is recovering nicely from the experience but is being kept quiet. Dr. Robert F. Werner was the operating surgeon.

GOVERNOR DEFERS VISIT TO A LATER OCCASION

On request of the allied organizations Governor C. C. Young will defer his expected visit from the coming week to a later date in September. The date tentatively selected proved unfortunate for the chief executive due to the impending special session of the legislature and the opening of State Fair and out of deference to these events it was felt best to hold the visit at a later date.

Keith Karlin, executive secretary to the Governor was in town Wednesday and a caller at The Nugget office. He expressed his keen delight at visiting Nevada City.

William and Victor Buck of Lincame up Monday enroute to their ranch at Orlean's Flat.

SHERIFF CARTER GETS PRAISE FOR CAPTURE LEUNG

Sheriff George R. Carter has been receiving congratulations from widely scattered points for his closing in on California's greatest murderer in the state's history, when he apprehended Leung Ying in an old tank house near the Empire mine early Thursday morning after a night of search. With him at the time of making the arrest was Deputy Arthur F. Hellings. Leung had killed ten people the day before in a Chinese settlement in Solano county and had fled to his old stamping grounds in an effort to seclude himself.

Carter and night watch, Wm. Jeffrey were keeping a close watch late the previous evening around the local Chinatown and when a truck drove into town in a hurried manner about 11 o'clok they inspected it. The driver was recognized as a Grass Valley Chinese and the stranger behind him was not spotted at the time as the killer, not resembling apparently the description which had been broadcast by Sheriff J. R. Thornton of Solano County.

Carter narrowly escaped death at the hands of the assassin at the time and only a momentary fear on Leung's part kept him from turning his concealed weapon on the sheriff. Leung had his gun pressed against the driver at the time to keep his mouth shut. Later in the night Carter took up the search of every place in both communities frequented by the Celestials and about 6:30 in the morning came onto the old tank house on the Dick Bennallack place. Pushing in the door he found the killer lying on the floor but made no move to defend himself. Carter however was taking no chances and with drawn gun took Leung into custody, lodged him in the county jail and notified the Solano officers.

Leung admitted his guilt and gleefully announced that he was "better man than Tanko Hall." He had a hypo needle concealed on him and was later found in his cell giving himself a little shot. On him was found a small black bag containing a piece of cake reported poisoned and which Leung claimed had been given him to eat by his victims and which he said was the motive for the wholesale killing. He also had a sawed off 25-35 Winchester with which he had done a portion of his fiendish work. He had over $100 in money on him.

Sheriff Thornton when he arrived ascribed the motive for the deed to trouble Leung had had with Wong Gee, first victim, some two months ago when he found Leung getting familiar with his 16 year old daughter, Nellie Gee, and chased him off the place. The motive may have been the start of a tong war, Leung being a member of the Bing Kong tong.

Leung had formerly been around Nevada City working in one of the Chinese stores.

RATTLER UNDER CHAIR STRIKES AT TYLER MAN

TYLER, Aug. 25, (Special to The Nugget)— Rev. Father O'Rielly celebrated mass at Cherokee Sunday.

Misses Eloise Phelan and Margaret Thomas were Sunday visitors from Nevada City.

Franics Phelan, wife and three sons and Mr. Herb Dovichi and Mrs. Berry all of Grass Valley were visitors here Monday evening.

Mr. and Mrs. Martin Meekan and daughter of San Pedro and Mr. and Mrs. John Meehan and son, Alton, and little grandson of Sacramento were visiting relatives here Thursday.

James Phelan and wife and Mrs. T. Flynn of Nevada City were visiting here Friday.

Mrs. Frank Puller and son and daughter of Dunsmuir returned home Saturday. Mrs. Puller came down to attend her brother's wedding, James Phelan and Miss M. Flynn.

Mrs. H. Seabury of Tyler has gone to Grass Valley to remain.

P. Curnow our Columbia Hill groer made a business trip to Nevada City Thursday.

Our highway was quite busy Thursday. There were more automobiles went through than any day this summer.

Mr. Day at the Salmon mine went in the kitchen to start the fire for supper. He pulled back a chair from the kitchen table and coiled under the chair was a large rattler. It struck at him three times before he killed it. The snake never gave any warning it was there.

Mr. and Mrs. R. McNamara went to French Corral Friday. Mrs. McNamara went down to attend the Native Daughters lodge.

Mr. M. Wisler and Mr. Pettet were visitors at the county seat Saturday.

MEETING IMPORT NOW BEING HELD FINANCE THE NID

Acting Manager F. M. Miller of the irrigation district in a statement issued to the press Friday expressed his belief that the district with the aid of the bond certification commission and the bond syndicate would find a way to develop more revenue for the district but had been askance at the elaborate program the district had been entering upon with insufficient capital to see it through.

The directors of the district will meet in session at the headquarters at 10:00 this morning for the discussion of routine matters. At two this afternoon at Elks Hall will be a public meeting at which time State Bank Examiner Wood, Attorney General Webb and representatives of the bond syndicate are expected to be present and give their views on the situation and possible plans for its alleviation.

COMPRESSOR ARRIVES AT THE SIBERIA MINE

NORTH COLUMBIA, Aug. 25, (Special to The Nugget)—Messrs. Frost and Bradbury of the Siberia mine at Badger Hill received their compressor on Tuesday and on Thursday got a truck load of lumber for their building at the mine. The ore is running from $11.00 to $170.00 per ton and if it continues as good as at present they are going to put in a stamp and rod mill to work the ore. Success to them is the wish of everyone in this locality.

M. C. Wisler and Frank Pettet made a business trip to Nevada City Wednesday.

Louis Garibaldi is busy repairing the house that he purchased from Mr. Farrel of Nevada City. It is the old Ryan place.

Mr. and Mrs. Roy McNamara spent the week end at Mr. and Mrs. J. Culver's at French Corral.

Mrs. Seabury left on Thursday for Grass Valley to assist her daughter and son-in-law, r. and Mrs. H. Curnow in moving. Mrs. Seabury has been at Mr. and Mrs. John Curnow's for several months assisting in the house work.

Mr. and Mrs. Pollard of Nevada City brought Mr. and Mrs. L. Garibaldi home last Sunday. Mrs. Garibaldi has been assisting her daughter for some time.

Phil Curnow took his brother to Nevada City Thursday. He had been visiting at Mr. Curnows for quite a while.

Mr. and Mrs. Jas. Phelan, the newly weds, were calling on their Cherokee friends Wednesday eve. Mrs. Phelan will teach the Cherokee school and will live in the Seabury house.

Roy McNamara, who sprained his back at the Salmon mine, is much improved and will start to work at the mine Monday.

Meehan Bros. and families of Los Angeles were renewing old acquaintances at Cherokee and this place on Thursday and Friday. They were accompanied by Mr. Shirley, who left here about 60 years ago.

James Coughlan and brother took a truck load of veal calves to Nevada City on Thursday and brought back a load of supplies.

George Hallock, who has extensive mining properties in the American Hill section, spent several days last week in this section. George is an eternal booster for the mining industry.

SHERIFF CARTER GIVEN HIGH PRAISE EXPLIOT

Sheriff George R. Carter was paid a high compliment by Sheriff J. R. Thornton of Solano County on his feat in capturing Leung Ying, the Chinese murderer, red handed at an early hour Thursday. The doughty Sheriff in going into the room where he located the killer elicited great praise and he has been receiving many compliments. The murdered family was highly respected in their community and the quick finding of the maniac greatly calmed the situation.

MINING LOCATIONS ARE FILED COUNTY RECORDER

The following mining locations have been filed with County Recorder Sam J. Clark:—

The Liberty Bell on Rock Creek in Sec. 29, T17N, R9E, by Wm. L. Davies and A. C. Davies.

Midas quartz claim in Moore's Flat Mining District by Andy Fitz Mining & Milling Co.

The Revenue and Revenue Extension quartz claim in Round Mountain District by William L. Davies.

Mayrose quartz claim in Rough & Ready Mining District by Miss O. M. Wiltse.

Jumbo quartz claim in Washington Mining District by W. I. Booth.

BUILDING AND LOAN OPENS SEPTEMBER 10

The campaign of the Nevada County Building and Loan Association to establish itself in a firm way in this community is meeting with excellent results so far. September 10th has been set for the opening day in its quarters in the former Citizens Bank Bank Building. Offices are being maintained at the present time to acquaint the public with the aims and intents of the organization.

W. A. Doctor, who is the state appaointed secretary for the new organization, in speaking of the growth of the idea the last few years, remarked to The Nugget representative that building and loan associations had their inception in the United States in 1831. Their record has been remarkably clean, even surpassing that of the national banks. They have grown great in numbers and resources, the 12,800 associations of the nation having aggregate resources of over seven billion dollars. In the last five years the building and loan associations have financed almost two and a half million homes.

In the last five years the resources of the associations of this state have climbed to 254 millions, over 50 million being added last year. Califfornia is a thrifty, prosperous, home building state. The wisely rigid State supervision of building and loan associations insures their development along sound lines and their development should continue at an accelerated rate.

JOHN FORTIER PROMOTED TO ASSISTANT CASHIER

The promotion of John J. Fortier to be assistant ashier of the Nevato be assistant cashier of the Nevada City Bank & Trust Company has been the occasion of many compliments being showered on the young gentleman by his many friends.

The Nugget had the pleasure of extending the first congratulations.

Mr. Fortier has served his apprenticeship in the local institution in an acceptable way and his ability had been recognized as he advanced in his chosen profession.

Mr. and Mrs. John H. Maxwell of Oakland, who own 80 ares on the Ukiah-Tahoe Highway at Five Mile House, came up last week to make arrangements for sinking a new well on their property.

C. H. Barkdull, mining engineer of Oakland was in town this weekend on his way to make an examination of the Old Pilgrim mine in company with J. J. Hauri, secretary treasurer of the Bonanza King Mining Company.

CHEROKEE MINES SIBERIA SALMON SHOW ACTIVITY

With the Siberia mine at Badger Hill being taken over by a new company proposing to open an extensive development program this season, and with the Salmon mine adjoining being developed by the Parnall interests, recently purchased by W. D. Hill of Los Angeles, the old Cherokee section is experiecning a new thrill in life.

The interests taking over the holdings of the Bigelow brothers are already repairing roads and bridges for hauling in heavy machinery preparatory to a thorough examination of the properties. E. B. Frost, who is superintendent in charge of operations, is an experienced hard rock miner and states himself as being highly pleased with the outlook so far. E. T. Bradbury of Oakland is interested in the formation of the new company and is well known in this section.

The Bigelow boys have been developing the property slowly as their limited funds would warrant but they have opened up enough ground to indicate the presene of a large body of ore of good milling vlaue. The new company is installing an air compressor and machine drills and sufficient equipment to open up workings at an early date. The company will install milling equipment as soon as conditions warrant.

Good ore is being taken out at the Salmon mine which gives good promise of becoming a large producer of golden wealth. A crew of men is steadily employed opening up the property.

The Morning Star mine which is owned by John Curnow and T. B. Curnow, consists of three locations. There is a shaft having a depth of 200 feet, with a good strong vein showing in the bottom of the shaft Samples taken across the face of the vein which is 2½ feet in width show assay values of $38.00, $140.55 $24.80 and $36.38 in gold. The Morning Star vein is a north and south vein while the War Eagle vein forms an east and west crossing. At the 100 foot level the vein is six feet wide and samples taken at that depth show values from $30.17 to $56.00.

Mr. Curnow has run a 150 foot tunnel on the War Eagle and some very fine ore is showing. A mill test on 400 pounds made by E. J. N. Ott of Nevada City shows free gold value per ton of $20.24 and sulphrets value of $85.75. Mr. Curnow is hoping to close a deal with a responsible company which is prepared to make a thorough investigation.

L. Garibaldi is expecting some mining men shortly to look over his mining properties on Shady Creek.

Things are looking bright around Cherokee.

ELKS WILL PILGRIMATE TO QUINCY, WEEKEND

The coming pilgrimage to Quincy by the members of Nevada City Elks Lodge will be made Saturday and a number of the members are planning on making the trip. There will be a big dance on Saturday evening, a baseball game Sunday afternoon between two picked teams and a ceremonial that evening. The return trip will be made on Monday. Exalted Ruler Thomas W. Richards will head the delegation.

The Quincy boys are noted for their hospitality and a royal time is primised.

The Elks staged an old fashioned charivari for Mr. and Mrs. Vincent Foley after the lodge session Friday evening and much noise and merrymaking was enjoyed.

EDDY JEWETT VISITS HERE AFTER 22 YEARS

Eddy Jewett was here from Hilo, T. H. to visit his parents, Mr. and Mrs. T. M. Jewett for a brief stay. It was his first time here in 22 years and he found a number of hanges. He is now returning to Hawaii by way of Los Angeles. He is an automobile trimmer and has a nice business built up at Hilo.

THE EDITOR'S BLESSING

Blessed are the merchants who advertise because they believe in it and in their business; for their prosperity shall increase many fold. Blessed are the country correspondents who send in their well-written items every week; for fame of their friendly neighbors shall go abroad in the land. Blessed is the woman who sends in a written account of a party or wedding; for she shall see the details of the function and the names of her guests correctly reported. Blessed are those who do not expect the Editor to know everything, but who will call up and tell him whenever an interesting event occurs to them; for they shall have a newsy paper in their town. Blessed are they who get in their copy early; for they shall occupy a warm place in the editor's heart. Blessed are they who co-operate with the editor in his efforts in behalf of that community; for their town shall be known for and wide as a good place in which to live.

The Wanderers.. Return Our School Bell

The first trip the bell made was around the Horn in 1872 with destination Sebastopool, Nevada county It was placed on the school house the same year. The school closed about thirty years ago. The house and bell were sold taken down and moved to Columbia Hill used for church for some years at that place later the building was bought by Mr. Frank Davies, proprietor of the Citizens Auto State between Nevada City and Alleghany. The bell was taken down and moved to Nevada City and stored. North San Juan lost their school house and bell by fire three years ago. Mrs. E. M. Austin, County Superintendent of schools and the Board of Supervisors turned over the Selby Flat school house which was moved to North San Juan. We were still short a bell. Mr. Frank Davies then came to our rescue and presented us with the dear old bell. Many thanks to Mr. Davies and so he it the bell is back on the Ridge and is resting on top of the school house waiting for school to start, so the wanderer has returned.

PARKER WILL WORK FOR GOOD OF MINING

Ivan H. Parker, Republican candidate for the State Senate, was Secretary of the Placer County Miners' Association for seven years.

Parker is at present an associate owner in the Woods tract of 70 acres of Mother Lode Mineral Land lying immediately west of Grass Valley and North of the North Star Mine, which is soon to be developed by Cooley Butler, the well known Los Angeles mine operator.

Parker states that mining is one of the basic industries of California. The ancient gold bearing river channels that cross and recross the divides in the Sierras and the quartz ledges of the state still hold countless millions awaiting development by well directed capital. The millions produced are but an index of the vast golden treasure that remains.

The prospector must be fostered and encouraged. The Ore Purchasing Law, commonly known as the high grade, while conceived to prevent the taking of rich ores, has in its actual workings, served to almost completely banish the prospector from the mining districts of California.

It shold be repealed and supplanted by some measure that will not penalize the prospector who now has such grave difficulty in disposing of his product in small quantities. He is unable to journey for many miles to the store of the licensed gold buyer, and the red tape necessary in sending to the Mint makes it almost impossible to sell his gold in small lots.

Encourage the prospector. From the earliest days his discoveries have made the mines, the mills, the mining towns and directly brought about the development of prosperous mining districts.

If nominated and elected Parker will introduce and vigorously support measures to rehabilitate this leading industry, to the end that the hum of the hydraulic monitor may yet mingle with the roar of the stamp mill in California.

THE HAPPINESS PLAN

Here is a savings plan designed to fit your needs, and with a specal co-operative feature by the which the United Security Bank & Trust Company helps you to make your systematic savings earn more than normalint erest.

We help you help yourself to happiness.

Each $500 Happiness Certificate is purchased by paying $3.02 a week, or $6.04 every other week, or $12.08 every fourth week. In oly 155 weeks you have paid $468.10. Compound interest plus the last payment which is made by this bank, adds enough so that there is $500 in your account.

That is the equivalent of 4.3 per cent compound interest.

The back of the Happiness Certificate has a schedule which operates as a pass book, showing you just how many payments you have made, how many are left, and how near you are to your goal of $500 in cash.

If for any reason you are forced to discontinue the plan, you may withdraw your money, plus regular bank interest, just as in an ordinary savings account.

Three years is a short time to accumulate $500 by this plan, and it has given many of our patrons a start on the road to accumulating quite a sum of money.

COLFAX RECORD BOOSTS GAYLORD FOR ASSEMBLY

Colfax Record

The following letter received by the Record from J. D. Stewart, who is known by everyone in the mining game in the hill country, is a very strong endorsement of Ed Gaylord for the assembly. The letter follows:

The mining fraternity will agree, with little dissent, that there is something in the way of legislation needed by the mining industry. Some believe we've received the wrong kind of legislation. Some think that there has been too much legislation and others that there has been a lack of legislation.

Possibly all are in a measure correct. However there is but one reason, in the mind of the writer, for all of these troubles, and that reason is the lack of understanding and knowledge of mining amongst the legislators from the mining districts. Certainly we cannot expect legislators from the agricultural and manufacturing districts to have any great knowledge of mining. However you will find these people most sympathetic to the needs of the mining industry and ready and willing to help However they have many questions to ask that they may vote intelligent- and if the representatives from the mining districts are unable to answer them clearly, then the cause is lost.

During the last legislature just such a situation arose over the Cloudman Bill to aid hydraulic mining. A small amount of the opposition came from downright crass political viciousness, but the bill was really beaten because it was not understood and our legislators seemed unable to explain it clearly. We were so badly handicapped that it was necessary to have Harold C. Cloudman, from Alameda County but a mining engineer born in the hydraulic mines at You Bet, introduce eth bill. This measure properly should have come from legislators representing the mining districts and aided by the gentlemen mentioned it would undoubtedly have won, for it was lost by but one vote.

At this election we are most fortunate in having Edwin C. Gaylord. Gaylord is, first of all, an outstanding citizen with ability, integrity and kindliness to the highest degree. Gaylord is a pioneer in this district and has already served a term in the assembly, so he is no novice at the game.

Ed knows what it is to work with his hands and was in the legislature when much of the outstanding humanatirian legislation relating to both men and women workers was written into our laws. His vote was always right on these matters. Labor problems are safe in his hands.

Ed knows the ranching game for he has planted and brought into bearing one of the finest orchards, in the county, starting the trees in his own nursery. He is able to care for the farmers' problems.

But greatest of all these is Ed's knowledge of mining. He knows the thrill of belting a drill with a single jack; has operated dredges, been in charge of hard rock mines and drift gravel mines, and stood at the deflector of a hydraulic monitor and brought down gravel banks to recover the precious metal therefrom.

Send Ed. Gaylord to the assembly and labor and farmer alike will be well represented and when Ed is called upon to explain some mining problem it will be intelligently answered.

A vote for Ed Gaylord is a vote to bring prosperity to these hills again.

James D. Stewart.

MOUNTAIN DEMOCRAT BOOSTS FOR CASSIDY

Declaring he is the man who will do the most good for the entire third senatorial district the Mountain Democrat of Placerville last week recommended the candidacy of B. A. Cassidy, Republican editor of Auburn to the voters at the primary election, August 28.

"Bert Cassidy, Auburn publisher, is aggressive and progressive" says the editor." The people are not led to believe that Mr. Cassidy is in any sense a super legislator; he is an ordinary mortal of the Mother Lode, who, by comparison with the other candidates, stands out head and shoulders above the fields, as being the proper man for the job.

"Cassidy has the endorsement of the Big Four Railroad Brotherhoods, a feature which should commend him to The People.

"Another of the outstanding features about Cassidy is that he is a newspaper man who has worked in the mines and in the lumbering industry. His power of perception as a member of the Fourth Estate has made him able to see the needs of the mining and lumbering industries, and to see the needs of all sections in his district.

"As a newspaperman, he knows how best to obtain a satisfaction of those needs.

"Cassidy stands in good favor with the present state administration.

"All of these things, we believe, commend him to the duties of the offie; not as any sponsor of freak legislation, or as a seeker after notoriety, but rather as a plugging, hard working, far-seeing state senator, who will conscientiously acknowledge and demonstrate his sacred duty to the People."

DUST PROBLEM SETTLED

There'll be no dust on the State Fair this year, literally as well as figuratively. The dust problem has been effectively solved, says Charles W. Paine, secretary-manager of the exposition to be held here September 1st to 8th.

And it is a California product that has solved it—a liquid calcium chloride manufactured by a Los Angeles concern.

The State Fair board entered into a contract with the Los Angeles company to spread liquid over dirt walks and roadways at the Fair grounds, and the first treatments have routed dust and dirt to Paine's complete satisfation.

"In former years," says Paine, "State Fair crowds have been caused considerable annoyance and discomfort by dust from the roadways but they'll not be bothered this year. It is costing the State Fair $3,000 to settle the dust, but it's worth it."

Wm. Haman was in town Saturday night on his way home from a camping trip in the northern part of the district and reports things as looking fine. Bill is an old campaigner and his fight for senate seat has been carefully waged.

Mrs. Elizabeth Davis is in San Francisco for a short vacation.

District Attorney W. E. Wright was a business visitor in Auburn Wednesday.

ODE TO THE FOREST

(By William Maynard)

What harm is done by fools like me
a'writin', poems about a tree?
But woe to him with careless fire
Makes Heaven's estate a treeless pyre.

Those blackened stumps on ashen slopes
Once stood as stately trees
That tune no more, their pine strung harps
With every playful breeze

They pointed straight to Heaven's Dome
Beyond whose arc no man may view
And brought a message to mankind
That He is watching over you.
May he who dropped that careless torch
Forever feel the shame
Of one who wrecked God's beauteous grove
And scorched His face with flame.

OLYMPIC GAMES WOULD BE GOOD NEVADA COUNTY

The proposal to bring the winter sports of the 1932 Olympic games program to Lake Tahoe and Truckee should have the backing of Placer, Nevada and El Dorado counties, says B. A. Cassidy, Auburn editor, who states all three counties will benefit materially if Lake Tahoe becomes an internationally known winter resort area, as it already is a summer playground.

Commenting upon the Olympic games in general, Cassidy says in relation to making Lake Tahoe the scene of winter sports:

"California is also bidding for the right to hold the winter sports in connection with the 1932 games, thereby making it an "All California" affair. Lake Tahoe is the logical place in California for these games to be held, and Lake Tahoe was discussed at Amsterdam this year at the business session.

"Placer, El Dorado and Nevada counties are vitally interested in having these winter sports come to Lake Tahoe. The lake is already the object of international recognition as a summer resort location. It can get this same recognition as a winter resort by attracting the winter sports of the 1932 Olympic games.

"Such immense undertakings are not won for any particular locality in a week or a month, it is generally the result of many months of work that brings them. Every service club, every chamber of commerce, and every citizen, having the future growth of Placer, Nevada and El Dorado counties at heart should work to make these games a realty for Lake Tahoe."

COZY CORNER CHAT

TOMORROW IS ELECTION DAY and some important offices are to be voted for by the enrolled citizens. Two legislative offices and three supervisoral positions are to be filled in this district. The legislative offices are particularly important from a mining standpoint with the increased interest being taken in our predominant industry. It is extremely important that the voters of Nevada County act wisely on how they cast their votes in this regard. For the past six years this assembly district has not had representation from a mining standpoint and it is high time that a change was made if iur mining industry is to get on its feet again. The present incumbent cannot point to a single piece of progressive mining legislation enacted in our behalf and that is exactly what the people are interested in. Personally the incumbent is a charming, cultured woman. As the representative of the leading mining district of the state, she has not measured up at all in a practical sense and her record in that regard is still a blank. She has been favored with a six year's stay at Sacramento and in that time what has she done for mining? This paper has continuously asked that question of such of her supporters as it run across and not one has enswered the question. We believe and we feel sincerely that it is time for Nevada County to put people in the state capitol at Sacramento that have a keen, surpassing interest in the mining industry. A strong representative in the assembly during the last session could have done wonders in putting over the Cloudman bill to benefit placer mining. Our representative was not heard loudly declaring in its behalf. We ask our readers to think the matter over seriously and see if it is not possible to send some one to the assembly this year who will look out for mning at every turn of the road. Ed Gaylord, a former assemblyman and a practical miner, has been put forward by the mining interests of this district and it is encumbent on every one who is in any way dependent on mining to vote for him to go to Sacramento. It is not a matter of sentiment. It is a matter of cold business if mining is to get going again. With capital seeking an outlet in promoting gold mining it is highly important that the industry be given a chance to rehabilitate itself. Every vote for Ed Gaylord is a vote for the mining industry. Remember that when marking your ballot.

IN THE SENATIORIAL RACE, there are two candidates who have had mining experience, BurtA. Cassidy and Ivan Parker. The others have stated their willingness to help the industry in every legitimate way. The late Senator Thomas Ingram was a tower of strength in the senate, when in his best health, for the mining industry. He was handicapped during his last term by bad health which greatly incapacited him. If Nevada county can have representation in both the senate and assembly pledged to aid the mining industry on every possible occasion, we stand an excellent chance to become the banner gold producing county in the state in the next year or so. The voters have it in their power tomorrow to make this possible.

IN THE SUPERVISORIAL CONTEST, there are some excellent men campaigning for the honor of representing the first district. R. A. Eddy can point with pride to many of his past achievements and feel that on the strength of his record that he should be returned. Frank Davies, who has been campaigning on the good roads issue, has been one of the promoters of the Lake Vera idea which has already brought this section of the state into great prominence as a recreational area through Mills College locating its summer camp here and the Oakland Campfire Girls with Camp Celio which has already attracted thousands to this community the past season. Uncle Tom Coan, who has invested a large sum of money in this section both in mining and recreation, feel that he is entitled to the voters's consideration and has been waging a campaign intended to interest the ballot casters Charles Eden, who has had considerable experience in road building feels that if he is elected that he can major or more roads and better roads with his background of practica knowledge. The first district is sure to be represented by a good man and with all of them pulling for good roads thi section should be sure to benefit.

IN THE MIDST OF THIS political palaver, it is well to call attention to the fact that The Nugget has eight page this week made possible by the advertising demands made fo this issue. It would be a splendid advertisement for Nevada City if her paper were that large every week, or larger. The only thing necessary is the display advertising and if our merchants will be liberal with their space this is entirely possible. Those merchants who do advertise are the ones who make it possible for Nevada City to have a newspaper, and only those. Those merchants who have been loyal to The Nugget through its two years of active life are the ones who are making it possible for Nevada City to get back on its feet again and to have its own newspaper. The readers of this paper should co-operate with Nugget advertisers as they are the ones who make The Nugget possible in Nevada City. They are community builders in every sense of the word. More power to them.

HAMAN SAYS DISTRICT LOOKS FINE TO HIM

After a tour of several days through Plumas, Sierra and other counties I have returned home enthusiastic over the prospects of election to the senate from the third district.

I found a strong sentiment everywhere in support of Governor Young's administration of state affairs but that there was considerable criticism of aspirants for office who announced that they were "administration candidates," and who tried to lead the public to believe that they might obtain extraordinary influence with the state government. No man has higher praise for Governor Young than I have. His administration has been a credit to the state and he is above petty practices. I have too much confidence in his integrity and fairness, to think that he would not endorse needed legislation because it did not come from some particular person. Proper bills which will be of benefit, no matter where or with who they originate, will have the backing of the state administration and any statoment to the contrary is an insult to the governor and will be resented by the people of the third senatorial district. I trust Governor Young and am satisfied that he will deal fairly with any senator elected by the people, but that he will not favor or back unnecessary or fad legislation no matter what legislator may sponsor it. It is all up to the kind of bill it is, not to say self-called administration candidate.

The people can be assured the governor and the administration will consider the bill—not the man.

I expect when elected to confer with the different groups representing farming, mining, lumbering and various organizations so that we might go over proposed legislation. I intend also to keep in contact with leaders and prominent people in all communities and keep them advised as to any adverse legislation which might affect their interests ,and to at all times work in close co-operation with the people. They are the bosses, their senator is on the job to serve them, not himself.

I have no pet schemes. No proposed legislation for selfish gain either for myself or any interest in the entire district. No one has any strings on me and I promise unbiased action in the interest of the people. I can work in entire harmony with the governor or his administration in all matters for the public good. On these grounds and on my official record of 18 years without a single complaint of unfairness I would appreciate your vote for the senate next Thursday.

Yours sincerely,
Wm. Haman.

STATE'S OWN FAIR

In the old days, at this time of the year, men burnished the harness and greased the axles that all might be in readiness for the journey to the State Fair. We can go there this year behind the nag, in an airplane, motor car, or train and the fair at the end of the route has progressed and developed just as have the ways of transportation.

The biggest pumpkins, it is to be hoped, will still be there. It is a tradition and what it demonstrates of soil, climate, and good farming is more important than ever. With it and its various relative with the livestock and mineral exhibits, will be the newest things in implements, automobiles, shool exhibits, industrial exhibits, shows, music and all that goes into a modern fair in a state of endless variety.

From September 1 to 8 the fair will be on, inviting attendance from the length of the commonwealth. It will be, far and away, the best State Fair California has seen.

DID YOU EVER STOP TO THINK
By Edson R. Waite

Louis F. Grill, managing editor of the Miles City (Mont.) Star, says:

That when you join up with a community building crew and build constructively, you are accomplishing something that will stand on foundations of time.

Among the things that should be stressed in community building is the establishing of beautiful yards, if you want to crown your labors with beauty.

Community building is an active enterprise. It contemplates that every citizen become an earnest and energetic builder, not for a day or even a year, but forever because what is built constructively is alive, for life has been injected into the effort.

It is one of the compensations of effort that whatever is achieved a certain pride radiates from it, not to eulogize the builder, but to stand as an emblem of some worthy object sought to be emphasized.

Anticipations are part of the enthusing forces that move a builder to attempt to do something, not in the spirit of rivalry but in the sense of an individual ontribution, which added to the whole effort will create a community with distinction.

Loyalty is the key that unlocks the door of success in all community building effort. Beyond the portal appear the tapestries denoting beauty of arrangement, the ceiling of ambitious attainment and the marble floor of solid achievement.

Step along with the crew of community builders and build a unit, which added to other units will make an America beautiful, and this can best be expressed in trees and flowers for where these are cultivated all things else in the way of a City Beautiful will follow.

IVAN H. PARKER FOR STATE SENATE

SERVED FOR SIX YEARS IN THE CALIFORNIA LEGISLATURE

Parker Saved Common People Thousands in Taxes

Ivan H. Parker, Republican candidate for State Senate in this district, served three terms in the lower house of the California Legislature.

Parker rose to the Chairmanship of the Committee of Agriculture and was also on Mines and Mining and Roads and Highways.

During the session of 1921 the needs of the State called for increase revenue. A tax bill was framed to raise the needed funds by increasing the state tax on the gross earnings of the railroads and major corporations from 5 per cent to 71 per cent.

The billl passed the Senate. In the fight in the Assembly a strong corporation lobby opposed it. A two-thirds vote (54) was required.

The vote of Parker was one of the 54 which carried the measure. Had he failed to stand with the people the bill would have met with defeat, and the State Board of Equalization was ready to send a 22c levy on county rolls for State use. The corporations had many able agents in Sacramento opposing their raise in taxes.

The 9th district had only Parker in the Assembly fighting valiantly for the farmers, merchants and home owners. Parker saved the county tax payers of this Senatorial District the following vast sums:

Placer	$27,744	$55,488
Nevada	15,577	31,114
Plumas.....	41.511	83,022
Sierra	5.369	10,738
El Dorado....	16,242	32,484

Parker has had much experience in legislation and is well fitted to represent the people of this district. In his declaration of candidacy in placing his name upon the ballot Parker made the following statement:

"I served in the California Legislature for six years. My record is clear. I fought in all the good fights. I kept the faith.

"Our nation is prosperous—the biggest going business concern on earth. My aim if nominated and elected will be to make laws that will divide prosperity more evenly.

IVAN H. PARKER,
Republican Candidate for State Sen.

Among those attending the wedding of Eugene Tucker and Miss Katherine Mergen were: Mr. and Mrs. John Muscardini, Mrs. Simon Hieronimous, Miss Elsie Hieronimous and Carl Hieronimous of this city and Dr. and Mrs. ReinhartMcClosky of Sacramento. The latter are former residents of this city and stopped over to take Mrs. Edward McClosky and little daughter home with them.

Mr. and Mrs. George E. Johnson, former residents, now of Sacramento are here visiting her obrther E. J. Baker, and family. Mr. Johnson was a dry goods merchant here at one time.

Carlton Bennetts and Harry Paxton after visiting Mr. and Mrs. R. J. Bennetts here, returned to Berkeley to resume studies at U. C.

George Halleck, operating the American Hill gravel mine, near Alleghany, was in Nevada City Saturday.

THE NUGGET PAGE OF MINING NEWS

MARIPOSA COUNTY

Good progress is reported on the Butler Divide property adjoining the Virginia. The crusscut tunnel is expected to cut the footwall of the vein at a point 230 feet below the old workings, where much bonanza ore was taken out in the early days. Compressed air is being furnished fro mthe Virginia property and it is expected to use the latter mill when the mine is operating, using a cable tram.

A two compartment shaft is to be sunk near where the bonanza ore was recently uncovered in the Buena Vista mine, owned by Bell McCord Rboerts of Long Beach. A drift will be run on the 800 level to tap the shoot. New buildings are being erected. D. R. Jones is superintendent.

The Goodluck mine is being developed by a shaft which will be sunk to a repth of 170 feet, it now being down 70 feet. The shaft is following a two foot vein of good drilling ore. A new type of stamp mill with a 7 ton apacity is to be installed. J. D. Upton is in charge.

Development work on a small scale is being prosecuted at the Duncan mine near Hornitos.

The state mining bureau recently issued a considerable portion of ore of its bulletins to the mineral resources of Mariposa county, dealing not only with gold mining but also with all metallic and non-metallic ores. C. K. MCk. Laizure was in charge of the report.

CALAVERAS COUNTY

A number of copper properties at Campo Seco owned by the Penn Mining Company have been taken over under bond by T. J. Jones of San Mateo.

A five foot ledge is reported in the bottom of a 300 foot winze sunk from the 600 level in the Demarset mine near Angels. The ore is said to average $14. a ton. The winze will be continued to a depth of 100 feet A new air compressor is being installed and the old workings cleaned out after 27 years of idleness. John C. Benson is in charge of operations.

SISKIYOU COUNTY

Development work at the Blue Jeans property on Russian creek has uncovered a promising shoot of ore. The property adjoins the famous Highland property. I. J. Luce is interested.

The Roxbury Hydraulic Mining Company which has an application pending to divert 150 second feet from the Klamath river near Scott bar for mining purposes, proposes to spend $300,000 in developing a water supply for the coming season on its properties at the junction of Scott and Klamath rivers.

EL DORADO COUNTY

A bond and lease on the Consolidated quartz mine in the notrhern part of the county has been taken by C. C. and C. W. Houser of Colorado who propose extensive development work. New equipment will be added. Present surface works include a stamp mill. Warren C. Green is owner of the property.

A force of fifteen men are employed at the Eureka-Woodside property at Georgetown. A 70 foot head frame and ore bins have been installed. With electrict power now available Georgetown is looking up.

Sinking of a shaft is under way at the Beebe property in Georgetown. The Josephine mine is to be reopened. George Tnompson of Long Beah is interested.

A cross cut on the No. 3 level is being run at the old Argonaut property near Greenwood by Addison Clark of San Francisco, superintendent for the Belcher Extension Annex Mining Company. Two shifts are employed.

A crew of twelve men is employed at the old Sliger mine which is milling $15. rock. The property is near Spanish Dry Diggings and was first located in 1868. C. A. Danielson formerly with the North Star at Grass Valley is superintendent.

Cinema Exports

Exports of motion pictures from the United States now average more than $16,0000,000 a year—the United States furnishing 90 per cent of the world output.

If Henry Ford builds highways in Hungary in order to supply the country with motorcars, a grateful people may yet change its name to Flivveria.

Pemmican. — Pemmican is the name given to a compressed food made of dried beef, dried currants, fat and sugar, and used extensively by explorers in the Arctic.

Maybe the automobile is an improvement on the horse, but the original finish does not seem to last so long.

This country was built up by the slogan, "Early to bed and early to rise," etc., but now the motto is "Don't work too hard."

UNKNOWN VALUES

In the Inyo Register is an article telling of the rich mineral find that has been discovered recently in the region of Death Valley When the teamsters in the early days used to be engaged in hauling borax out of Death Valley, they often camped at a place located on the road between Wingate Pass on the southeast end of the Panamint Range of mountains, and Anvil Springs. Four miles of this road was overed more or less with a white mud which made heavy pulling for the teams, and always threatened the teamsters with the fear of getting stuck. Beyond the fact that this patch of mud was considered a nuisance to the hauling of borax out of Death Valley, no particular significance was attached to its existence.

However, a professional chemist named "Henry von Pleikis, a graduate of Heidelberg University, Germany, took samples of this white mud and analyzed it, and found that it contains strata of lead oxide, some assaying as high as seventy per cent of lead. On the strength of Pleikis' discovery, the Clark Company of Montana has bonded the property for $130,000. A lively camp has been established, and a flotation plant is being erected at the scene of the strike, which is now valued at millions of dollars.

The new plant is forty-eight miles from Shoshone Springs, and near the site is an old mill, which was abandoned by prospectors forty years ago.

It is surprising that even the desert places of California contain unknown wealth, which requires the knowledge of modern science to discover, and to develop the natural resources of the country.

"Casting pearls before swine," is an adage as old as the Great Teacher, but its truth is as old as the history of the humand race. Spain and Mexico ruled California for centuries, without the discovery of gold, but as soon as the enterprising Yankee came with his pickaxe, a new El Dorado was revealed to a curious world. *

IMPROVED MINER'S PAN

To take the place of the familiar pan in separating gold from sand and gravel, a whirling bowl devised by a Nebraska man is operated on the same principle as a cement mixer or a cream separator, says Popular Mechanics magazine. A revolving screen removes the coarse gravel before the material is run into the bowl itself. This is fitted with grooves that retain the heavy gold particles as the container turns. The outfit is operated by a small engine and there is a pump to furnish water. A small unit will handle from twenty to thirty tons of material a day. *

PLACER COUNTY

The Double O Mining Company is retimbering its workings preparatory to extensive developments. Property is at Deadwodd. Chris McCarthy is in charge of operations.

A bedrock tunnel is being run in Devils Canyon below Michigan Bluff to tap an old channel there.

The Blackhawk mine adjoining the Mayflower property near Foresthill has been taken under bond by Chicago capitalists. It is announced that J. L. Pierce will be in charge of operations.

It is expected that the Three Queens property will be operating again after the stock selling difficulties have been cleared up.

Work at the Baker Divide property is progressing satisfatorily. A drift is being run to tap an extension of the old Turkey Hill channel. The Foresthill Development Company is prosecuting operations.

Of course we are for the Kellogg treaty. The whole world seems to be for it and the best way to keep the world for it is for Uncle Sam to keep his navy in first class condition.

Aviation is becoming so much a matter of course that it wouldn't surprise us much any day now to see a two passenger airplane go by with seven or eight high school girls comfortably seated in it.—Ohio State Journal.

Pipe Line Center.— More oil and gas pipe lines converge at Fort Worth, Texas, than any other point in the world.

When one recalls that standing on a wet plank has its difficulties, how much less secure must the footing be when an attempt is made to run on it!

A mastadon's tooth weighing four pounds has been found in Mississippi Can't you remember when you had teeth that weighed four pounds, while you waited in the dentist's office hoping he was too busy to see you?

"THAT'S GOLD IN THEM THAR HILLS."

Community knockers and habitual croakers to the contrary, the truth of that somewhat rustic expression is at last being recognized by the sons of the men and women who first discovered it.

All that is needed to give impetus to the onward sweep of prosperity in Nevada county is capital; and capital is anxious to be of assistance but,—

The very people whom the capital will most benefit seem to do their utmost to discourage the investment of capital.

A miner, for instance, may own a claim and not have the money to develop it. Someone who does have the money comes along and wants to develop the claim. Of course they are willing to pay the miner, but the miner wants his money before the operations are started.

And you can't expect hard-headed business men to pay for putting equipment on the ground, and then buy the property "sight unseen" before they know what's in the hole.

Claim owners should consider this and should demonstrate their conviction that "thar's gold in them thar hills" by seeking only a reasonable and fair agreement of their property. Otherwise they are not only cheating themselves, but they are depriving the county of its natural advancement. *

CENTRAL EUREKA HAD A SUCCESSFUL PERIOD

According to a report by W. P. Henry of the Central Eureka Mine at Sutter Creek, the company has closed a very satisfactory year with the property. In his report to the stockholders Mr. Henry states that during the year 56,774 tons of ore were milled from which $447,579 were recovered. $347,724 of this was in bullion and $99,855 in concentrates. The recovery per ton was $7.88, plus $1.10 average assay value of tailings, or an average value in the ore of $8.98.

A total of 3,534 feet of drifts raises and crosscuts were made during the year and this has resulted in the 1200 level of the Old Eureka and the 1500 level of the Central Eureka is now one continuous level with cars running over the track between the two shafts.—Dispatch.

Guests too, like automatic hot water service

One never knows when hot water is wanted in their home. And one never knows who wants it.

On the average, there is a demand for hot water 70 times a day in the usual family of four. And this demand starts in the early morning and continues until late at night.

How inconvenient it is to meet that demand with the ordinary water heater!

But a modern Automatic Gas Water Heater keeps hot water always ready for instant use. You merely turn the hot water faucet for a cupful or gallons of steaming water.

Why don't you, too, enjoy the comfort and convenience of a modern Automatic Gas Water Heater? It is the cheapest way to heat water in the home.

SCHOOL DAYS BECKON MANY THOUGHTS OF YORE

FRENCH CORRAL, Aug. 25, (Special to The Nugget)—The leading thought this week is schooldays. Teachers home from their vacation, getting ready for the new term. Pupils going home, their vacation over. Some sorry, some glad, mothers busy sewing making their dresses for their girls, and outfitting their boys. Busy preparation on every hand. Schooldays! How the word carries us back across the years and we recall those dear old days the real happiness of which but few of ever realize until they are past. It seems, the old time schooldays were the best and carried more real pleasure. How many things we can recall that will now seem shocking, the big red apples that were brought to school and shared by perhaps a dozen mouths and then some one would want the core! And the good old pine gum that we used to chew. It had an unpleasant fashion of going into dust unless sufficiently warmed in the mouth before chewing and we would hear this "Gimme a piece of your gum to start mine with," and often, "Oh let me chew your wad for a while!" No thoughts of germs or microbes or knowledge of them either in those days. Well, here we are wandering back to the old school days, and not writing items, but we cant help it, and will say that those dear old days were the best and carried the warmest, deepest friendships. Now to the "news."—

Wesley M. Bean, who was visiting friends in French Corral, returned to Nevada City Friday and will return to his home in San Francisco Sunday.

Miss Barbara McMinn, who was visiting friends in Oakland for several weeks returned to her home in French Corral Saturday. She was accompanied by her friends, Mr. and Mrs. C. Mendushier and their children, Carl, Marion, Louis and Richard, who returned to Oakland Sunday. Miss Barbara will be a pupil of the Nevada City high school the coming term.

Raymond Witzel returned to his home in Oakland Saturday. He has been spending his vacation with the family of his uncle, W. E. Moulton.

Mr. Ford Congdon formerly of Timbuctoo, Yuba County is sojourning in French Corral for a while Mr. Congdon has quite an interesting history to relate, his family having come to California in 1848. He was born in the once famous mining town of Timbuctoo. His mother was the second white woman to settle in that place. Mr. Congdon has a wonderful memory and can tell so much of the early history of our county and Yuba County. He would be a good one for some of the Native Sons or Daughter to get information from.

Miss Theresa O'Connor and her brother, Mike, of Birchville were Sunday evening visitors. Miss O'Connor will teach in Pleasant Valley the coming term.

Raymond Young of Nevada City and Miss Alma Thomas were Sunday visitors.

Miss Gladys Thomas is visiting her parents, Mr. and Mrs. H. Thomas of Birhville.

W. E. Moulton and N. B. Bishop made a business trip to Nevada City Monday.

J. W. Culver and wife went to Tyler Monday to visit Mr. Culver's sister, Mrs. Roy MNamara.

Mrs. Leola May Buck, who is running for the office of state senator paid this place a visit Monday. She has a very pleasing personality and seems well qualified for the office she is seeking.

Misses Katie and Lucy O'Connor and their brother, Frank, returned to their home in Birchville yesterday. They were in Sacramento for a while where their brother, Frank, has been under the doctor's care. He returns much improved.

Miss Theresa O'Conner and brother, Mike, paid a visit to Grass Valley Wednesday.

Mrs. J. D. Morris, Mrs. K. Sullivan, Miss Nelly Sullivan, Harry and Irene Browning spent Wednesday afternoon in Pleasant Valley with their friend, Mrs. Ted Schwartz. While there they had the pleasure of listening to Alfred Smith's speech of acceptance. It was certainly a great pleasure to be able to hear the voice of that grand man. While the speech was everything that was grand and good, it could not be otherwise coming from Al Smith. We were certainly filled with wonderment when we realized that we were sitting here in California listening to a man tolking in New York.

PARKER SUPPORTS LABORING MEN

Ivan H. Parker, Republican candidate for the State Senate, has a clear record in his votes for laws that are in the interest of men who labor.

Following is a copy of a letter received by Parker at the close of his third term in the California Legislature:

"CALIFORNIA LEGISLATIVE BOARD

"Sacramento, May 2, 1921.

Order of Railway Conductors
Brotherhood of Railroad Trainmen
Brotherhood of Locomotive Engineers,
Brotherhood of Locomotive Firemen and Enginemen.

"Honorable Ivan H. Parker,
Assembly District 9,
Auburn, Cal.

"Dear Sir:

"The membership of the four railway brotherhoods named in the above letterhead, through their legislative representatives, desire to express to you their sincere appreciation and thanks for the loyal support given by you to our bills and for the consideration and courtesy shown our representatives at Sacramento, during the 44th session of the Legislature of California.

"Further, the State Legislative Representatives desire herewith to say, that we recommend you to everyone in your district who wishes representation at the Legislature of a progressive and humanitarian nature, should you again be a candidate for office.

"We remain,
"Very truly yours,
"J. H. Wasserberger, O. R. C., Jas. M. Murphy, B. of R. T., John Finlay, B. of L. E., G. F. Irvine, B. of L. F. & E.
("Official Seal Joint Legislative Board.)"

Ivan H. Parker is a practical printer, and was initiated into Sacramento Typographical Union No. 46, May 23, 1923, and worked in the State Department of Printing at Sacramento.

POLITICAL

SUPERVISOR RACE HAS WARMTH, ALLEGHANY

ALLEGHANY, Aug. 25, (Special to The Nugget)— Mr. and Mrs. John Hotspietch spent a two week's vacation at Wilbur Hot Springs.

Mrs. Greenbank is here looking after her property. She has been spending her winter with relatives in Auburn and Oroville.

Mrs. Ed Davey, Thelma and Edgar, left Thursday for Grass Valley where they will live while Edgar enters high school and Thelma the eighth grade. Mr. Davey will remain in Alleghany.

Mrs. Rod McDougal has been visiting relatives in Pike City.

Mr. and Mrs. Joe Scheffer of Oakland are visiting his parents, Mr. and Mrs. Oliver Scheffer.

Mr. Chance has been elected to teach school in Alleghany this coming fall. Mr. Chance taught in Forest City a number of terms ago so isn't a stranger in this end of the county.

The Buell Brothers are busy hauling oak wood in for the 16 to 1 cottages.

There is considerable interest in the coming primary election and especially the supervisor for this district. There are two new candidates as well as the incumbent in the race.

Ray Kingsland has gone to the Mare Island marine hospital to have his tonsils out.

The young daughter of Mr. and Mrs. William Hamilton of Roseville passed away Thursday evening. Funeral services were held yesterday. The bereaved mother was formerly Thelma Ann Lopez of Nevada City.

"WANTED a modern 10-stamp quartz mill. Nothing under 1250 pound stamps will be considered. State how long used, condition and equipment and lowest price."
KATE HARDY MINING COMPANY, Head office 411 B Street, Santa Rosa, California.

41-43ch

A man that could devote all his time to the duties of the office if elected—Vote for Charles Eden for Supervisor. 40-41

James Grimes, mining man of Oakland, is here visiting Mrs. M. Grimes and family.

Mrs. M. Grimes is in Oakland visiting her daughter, Mrs. G. M. Flint and family.

Mrs. P. O. Strandberg who has spent some time in San Francisco, arrived home this week.

The Nevada City high and grammar schools open today for the fall term.

PERSONAL MENTION

Grand Trustee M. E. Lane of Fresno delivered an interesting talk on the early history of California at the last meeting of Hydraulic Parlor, Native Sons.

A peeping Tom has been busy in town the past week but no clues yet discovered. Night Watch Jeffrey was called to the J. Anderson home on Piety Hill and the Jaynes home on reports that they were being disturbed.

Deer season opens September 16th in this district.

Mrs. May B. Jaynes underwent an operation for appendicitic at the Nevada City Sanitarium Wednesday. Dr. Robert F. Werner has charge of the case.

Mr. and Mrs. Henry Ponticelli of Alleghany are on a tour of the east including Niagara Falls. They left last week from Colfax Mr. and Mrs. E. J. Kilroy driving them to Colfax to catch the limited.

Bernice Fleming of Sacramento is visiting her aunt, Mrs. Mamie Flynn.

A fire in the compressor of the Pennsylvania shaft of the Empire mine Friday caused a halt in operations for some little time in the morning. The equipment was not damaged.

Mr. and Mrs. Thomas Riddle are home from a trip thru the northwest Mr. and Mrs. E. Rogers of Hammonton accompanied them on the auto trip.

Jack Magonigal came over from Truckee Monday on a business trip.

HELP WIN HYDRAULIC MINER'S BATTLE

For three years, almost single-handed, I have waged a battle that we may work out our hydraulic mines again. No need to tell you what this will mean in dollars and happiness to all of us. At the last session of the legislature we were beat by one vote.

We had no representatives from the mining districts who knew anything of hydraulic mining. That was a bad handicap.

I have not met all of you, but everyone of you that I have met, have assured me you would help in any way possible if I would but tell you what to do.

The time has come when I need your help and need it badly. We have a candidate for the Assembly this time who knows gold mining in all of its branches and who is a practical hydraulic miner. If you would help me in this fight, vote for Edwin C. Gaylord for assemblyman. A vote for Ed is a vote to bring happiness and prosperity to our hills again.

Put Ed in the Assembly and the front line trenches are taken care of and I will be free to do other necessary work.

We are winning. Vote for Ed and help put all branches of mining on the top again.

JAMES D. STEWART

Mrs. J. M. Foley and Mr. and Mrs. Ursel Foley are in Reno, Nevada, visiting Mrs. Joseph Ryan.
